

**how this works**

This sitemap will help us create the structure of your new website. As an editable document, you can make changes to this structure.

**structure**

Parent / Child relation is created by indentation to the right.

Box color determines the nature of the page:

- SiteMap Title Info
- Section - Overview and links to child pages.
- Static Page - Content won't change often.
- Dynamic Page - Content changes often.
- Special Feature
- Tool universal to the whole site

**how to edit**

You can change/re-arrange this structure by clicking and dragging boxes to different locations. \*Creating new boxes may increase the cost of your project.

**approval**

Please email your project manager with approval when you have finished revising / editing the sitemap.
